About the job

Meet REVOLVE:
REVOLVE is the next-generation fashion retailer for Millennial and Generation Z consumers. As a trusted, premium lifestyle brand, and a go-to online source for discovery and inspiration, we deliver an engaging customer experience from a vast yet curated offering totaling over 45,000 apparel, footwear, accessories and beauty styles. Our dynamic platform connects a deeply engaged community of millions of consumers, thousands of global fashion influencers, and more than 500 emerging, established and owned brands. Through 20 years of continued investment in technology, data analytics, and innovative marketing and merchandising strategies, we have built a powerful platform and brand that we believe is connecting with the next generation of consumers and is redefining fashion retail for the 21st century. For more information please visit www.revolve.com.

At REVOLVE the most successful team members have the thirst and creativity to redefine fashion retail for the 21st century, making REVOLVE the leading online retail destination targeted towards Millennial and Generation Z consumers seeking premium fashion. With a team of 1,000 strong, we are a dynamic bunch that are motivated by getting the company to the next level. It's our goal to hire high-energy, diverse, bright, creative, and flexible individuals who thrive in a fast-paced work environment.

Some of the sweetest perks we offer aren't in a typical benefit package like hefty discount on items we carry – as in 50% or more off retail prices, free weekly lunches, and pretty rad company parties.
 To take a behind the scenes look at the REVOLVE "corporate" lifestyle check out our Instagram @REVOLVEcareers or #lifeatrevolve.

Are you ready to set the standard for Premium apparel?

Main purpose of the Software Engineer role:

This is a full-time role for a candidate who will develop and maintain software services and reporting software used by Finance and Planning teams.

Major Responsibilities:

Essential Duties and Responsibilities include the following. Other duties may be assigned.

- Analyze user requirement and develop new modules for external customers and internal business processes.
- Implement, maintain and troubleshoot database driven internal applications using SQL, Java, JSP, Spring MVC, Javascript and Redis.
- Troubleshoot issues, perform analyses and provide efficient solutions for operations, warehouse and international marketing teams.

Required Competencies:

To perform the job successfully, an individual should demonstrate the following competencies:

- Develop and deploy bug free code to production on a daily basis
- Communicate effectively with internal end users (Business Owners) and working with them to refine specs for tasks.
- Must be comfortable coding applications from start to finish on a fast pace.

Minimum Qualifications:

- 2 Years of professional work experience
- Bachelors in Computer Science/Computer Engineering or equivalent degree
- Java, SQL, Redis, Java Spring Framework, Javascript

Preferred Qualifications:

- Bachelors or Masters Degree in Computer Science/Computer Engineering
- Java, Sql, Redis, Java Spring Framework, Webpack, Javascript

A successful candidate works well in a dynamic environment with minimal supervision. At REVOLVE we all roll up our sleeves to pitch-in and do whatever it takes to get the job done. Each day is a little different, it's what keeps us on our toes and excited to come to work every day.

For individuals assigned and/or hired to work in California, Revolve includes a reasonable estimate of the salary or hourly rate range for this role. This takes into account the wide range of factors that are considered in making compensation decisions; including but not limited to business or organizational needs, skill sets, experience and training, licensure, and certifications.

A reasonable estimate of the current base hourly/salary range is \$110,000 /year - \$140,000 /year

Open to remote work in the following states: California, Texas, Idaho, New York, Pennsylvania, Kentucky.
